Exclusively designed for 100% Dead Sea Minerals

Ozone purification

Healthy pool water sanitiser

Professional poolside health checks

pH Balancer ready

Experience the exceptional benefits of ozone purification & 100% Dead Sea Minerals in your pool.

## WHAT IS THE MINERAL SWIM™ PURIFICATION SYSTEM

### 100% DEAD SEA MINERALS

For thousands of years, the Dead Sea has attracted visitors from around the world, searching to renew their skin's vitality and youthfulness with the mineral-rich deposits along its shores. The high mineral content, low concentration of pollens, allergens and UV rays, plus high atmospheric pressure, make the Dead Sea the epicentre for health research and treatment. Now you can experience the wonderful benefits of the Dead Sea in your pool with Maytronics Mineral Swim™ 100% Dead Sea Minerals.

### OZONE-TO-OXYGEN PURIFICATION

Ozone purification is 3,000 times more powerful than traditional water purification, reducing chlorine requirement by up to 80%, leaving you with clear, clean and odour-free pool water. Ozone instantly neutralises any organic contaminant and converts it into oxygen before the water reaches your pool. The result is water that is softer, safer, and more hygienic.

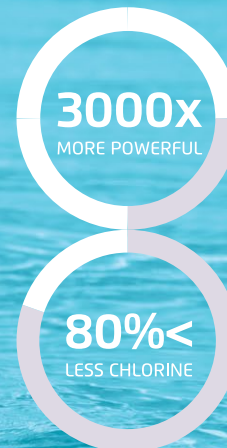

## HEALTH & WELLBEING BENEFITS

Say goodbye to the smell of chlorine, red eyes, and dry skin, often associated with traditional chlorine or salt water swimming pools. Convert to a Mineral Swim™ pool to recreate the relaxing, health benefits of natural, magnesium-rich water, which people have enjoyed for centuries at the Dead Sea.

Mineral Swim™ mineral purification system – designed and made in Australia, for Australian pools – combines the latest in ozone purification, mineral chlorination and 100% natural Dead Sea Minerals for crystal clear, healthy and therapeutic pool water.

- ✓ Safe for allergy, asthma & eczema sufferers
- ✓ Odour-free water
- ✓ Soft on skin, gentle on eyes
- ✓ Compatible with any existing pool system
- ✓ Stimulates skin hydration
- ✓ Relaxes muscles
- ✓ Detoxifies & regenerates the skin
- ✓ Crystal clear water

THE NEW BENCHMARK IN  
**ENVIRONMENTAL SUSTAINABILITY**  
FOR SWIMMING POOLS & SPAS

# ENVIRONMENTAL BENEFITS

## CLIMATE CARE CERTIFIED

Mineral Swim™ is proud to be Climate Care Certified by the Swimming Pool and Spa Association of Australia (SPASA) Measuring water and energy efficiency, this is the benchmark in environmental sustainability for swimming pools.

## REDUCES WATER WASTAGE

Magnesium is an efficient flocculant which improves water clarity and can reduce the need for backwashing. With fewer chemicals in the water, it can be diluted and reused for garden irrigation.

## REDUCES MAINTENANCE COSTS

A Mineral Swim™ pool uses fewer harsh chemicals, prolonging the life of your pool equipment, and saving costly replacements, repairs and maintenance.

“ The water feels so silky and hydrating to our skin and it’s so great not having to shower after swimming. My hubby says it’s like diving into a bottle of San Pellegrino. ”

Georgia Harding, Well Nourished

“ We love it! Everyone should have this. I would highly recommend Mineral Swim. ”

Katie, Mineral Swim Pool Owner, NSW

## Trusted by companies. Loved by swimmers!

The Mineral Swim™ system has appeared on The Block, Healthy Homes and Three Birds Renovations.

Our Mineral Swim™ control unit offers a complete solution for all your pool sanitation needs, with optional modules available for enhanced functionality.

Mineral Swim™ Remote Control

Mineral Swim™ Central Control Unit Module

Future Module Upgrades

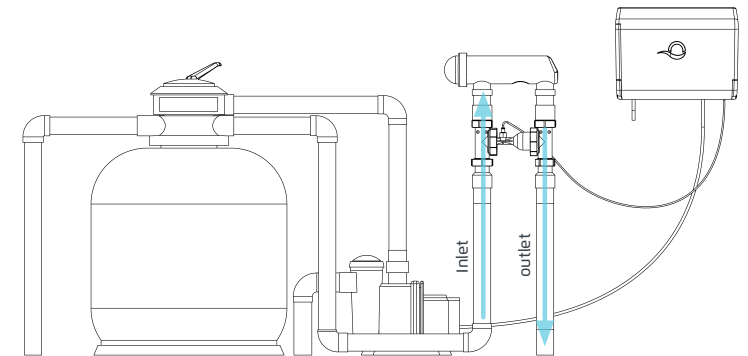

#### Mineral Swim™ Generator Module

The Mineral Swim™ Generator Module safely converts either 100% Dead Sea Minerals or standard salt into pure sanitiser, delivering most of your pool's sanitation needs.

#### Mineral Swim™ Purifier Module

Pool water purification the natural way. Ozone reduces chlorine demand by up to 80% while leaving you with clear, clean and odour-free pool water.

Transform your pool into a Mineral Swim™ pool with quick, easy installation that seamlessly integrates with your existing pool equipment.

### MINERAL SWIM™ PRO

Mineral Swim™ PRO offers an ideal solution for either newly constructed pools or for upgrading an existing sanitation system. This system combines the Generator and Purifier modules, eliminating the need for a separate chlorinator, and simplifying installation and operation. It comes in various options to accommodate any size pool up to 155,000 litres.

### MINERAL SWIM™ PURIFIER

Add the Mineral Swim™ Purifier to your Ecoswim® Chlorinator or any existing salt/mineral chlorinator to benefit from ozone purification. Simply install the Mineral Swim™ Purifier and add 100% Dead Sea Minerals, to convert your pool into a Mineral Swim™ pool in less than an hour!

# CHOOSE YOUR MINERAL SWIM™ POOL SYSTEM

Say goodbye to the overpowering scent of chlorine, irritated red eyes, and uncomfortable dry skin. With Mineral Swim™, you can experience the soothing and healthy benefits of magnesium-rich mineral water, echoing the relaxing experiences of the Dead Sea that have been enjoyed for thousands of years. The Maytronics Mineral Swim™ PRO and Purifier Systems, blend 100% Dead Sea magnesium-rich minerals with natural ozone-to-oxygen water purification technology. This exceptional combination produces crystal-clear, healthy, and therapeutic pool water.
